

Learning in our community

A WEALTH OF LEARNING ON OUR DOORSTEP

On Wednesday of this week, Grade 9 visited the Al Mouj development project. Mr David Cummings (the Vice President of Construction Management) spoke to our students about the development over the last few years.

We then travelled by bus to see the artificial reefs that have been built, the marina project, and see the progress that has been made on the artificial beach.

This trip was very valuable in providing relevant, contextual learning for our Coastal Environment study that has been the focus of our Geography learning this year.

Reduce Reuse Recycle ...

This week was an exciting one for our enthusiastic recyclers as we celebrated the first 'pickup' of our paper recycling.

An initiative hosted by the Muscat Daily newspaper sees our paper recycling being collected on a regular basis.

Thanks to Thihan and Naledi who have been instrumental in organizing this, with the support of Ms Silvia.

AND IN GRADE 9 ENGLISH ...

...these informative flyers have been produced, many with a very clear message regarding our responsibility to make an effort to Reduce, Reuse, and Recycle.

Please come and view the work Grade 9 have done as part of their English program.

School Notes

Looking ahead

The countdown is on – to Oman National Day. When you walk into the EY's and Primary areas you will see that our local staff have already started decorating 'our place' in readiness.

There will be a morning of activities celebrating this occasion so mark your calendars –

THURSDAY NOVEMBER 19 @ 8am.

A notice will be coming home on Sunday 15 November with full details.

UNIFORM update

It has been fabulous to see some improvement in the students wearing correct school uniform. Thank you to those parents who are supporting us with this. From Sunday those who are wearing non-uniform items – jewellery, incorrect shoes, coloured leggings etc. – will receive a note identifying this and asking parents to help in remedying it. If the item is still being worn after three notices we will ring parents to find a solution. Thank you in advance for your assistance.

Healthy Eating Options

We have reviewed the selection for students who buy food from the canteen. In line with our commitment to the health and wellbeing of our students please find below the items that will be available for purchase from Sunday 8 November.

Sandwiches – Vegetable 350 Baize
Non-Veg 500 Baize

Chicken Caesar Salad
Classic Club Sandwich
Smoked Turkey
Grilled Chicken
Tuna
